

## GREEN INCENTIVE – POLISH AMAZON

The **Biebrza National Park** is located in Northeast Poland, in the Podlaskie Voivodship. The northeastern boundary of the park is near the Belarus border. The Narew River and its confluence with the Biebrza River form the southern boundary. The park was established in 1993, and with a total area of 59 233 ha, it is the largest of the Polish national parks. The Park includes 15 547 ha of forests, 18 182 ha of agricultural land, and 25 494 ha of wetlands - the most valuable habitats of the park - the famous Biebrza marshes. The area of 3 936 ha is under strict protection including the Czerwone Bagno or Red Bog at the Grzędy Forest District. Unique in Europe for its marshes and peatlands, as well as its highly diversified fauna, especially birds- the Park was designated as a wetland site of global significance and is under the protection of the RAMSAR Convention.
